

Micro-Solve®

Solubilizer-Demulsifier

A POSITIVE APPROACH AGAINST ACCUMULATIONS OF BUILDUP OF GREASES, SLUDGE AND ODORS IN DRAINS, GREASE TRAPS, SEPTIC SYSTEMS, AND PUMPING STATIONS.

All components of this product are listed with USEPA-TSCA.

DIRECTIONS

Wet Wells, Pumping Stations: Initially add 5 to 10 gallons to Wet Well or Inverts. Add 1-3 gallons every 2 weeks, or as needed, to control further grease caking or build-up.

Digestors: Introduce through ports inspection holes at the top of the digester (20 to 30 gallons, more if needed), and add 500 to 2,000 gallons of water to wet down grease and scum cake. Continue to wet down cake daily. Add 2 gallons in sludge compartment to attack grease from the bottom.

Grease Traps: Apply 3 to 5 gallons directly to the grease trap, mix well with water. After 72 hours mix with water again. To maintain, apply 1 quart weekly.

Septic Systems: Apply 2 to 3 gallons directly in the septic tank, mix well with water. Add 1 quart per week to any drain line for the next 4 weeks. To maintain, add 1 quart per month to any drain line. Note: If the drain field is clogged, add 2 to 3 gallons directly to the distribution box or header pipe.

Before using this compound, food products and packing materials must be removed from the room or carefully protected. After using this compound, surfaces must be thoroughly rinsed with potable water.

This product is designed exclusively for industrial and institutional use by trained, professional maintenance personnel. Label directions and precautions must be followed exactly. D. McGarva will not be responsible for any injury, loss, or damage, if product is used in any manner not in compliance with label directions or if precautions are not observed.

PRECAUCION: AL USUARIO: SI USTED NO LEE INGLES, NO USE ESTE PRODUCTO HASTA QUE LA ETIQUETA LE HAYA SIDO EXPLICADO AMPLIAMENTE. (TO THE USER: IF YOU CANNOT READ ENGLISH, DO NOT USE THIS PRODUCT UNTIL THE LABEL HAS BEEN FULLY EXPLAINED TO YOU.)

Manufactured by: **BIO-TECH INDUSTRIES, Inc.**
(904) 272-6446

P.O. Box 65276
ORANGE PARK, FL. 32065-0005

Contains aliphatic hydrocarbons and phenolic compounds. **HARMFUL IF INHALED OR ABSORBED THROUGH THE SKIN. DO NOT SWALLOW THIS PRODUCT.**

Can cause severe eye irritation or inflammation. May cause slight skin irritation. Inhalation of spray mists or vapors may cause respiratory tract irritation. Avoid breathing vapors or spray mist. Exposure may aggravate existing eye or respiratory disorders.

D. McGarva advocates limiting exposure to all chemical products. Wear tight-fitting, splash-proof safety glasses during product use, especially contact lens wearers. The use of rubber, neoprene, nitrile or other resistant gloves is strongly recommended for prolonged use. **USE PRODUCT IN WELL VENTILATED AREAS ONLY;** and use exhaust fans in enclosed areas. Remove contaminated clothing promptly and DO NOT rewear until thoroughly cleaned. After handling, wash hands thoroughly with soap and water.

FIRST AID:

EYES: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.

SKIN: Flush contaminated skin with plenty of water. Consult physician if irritation develops.

INHALATION: Move exposed person to fresh air. If irritation persists, get medical attention immediately.

INGESTION: If this product is swallowed, DO NOT induce vomiting. If vomiting occurs, keep head below hip level to prevent aspiration (breathing) of fluid into lungs. If affected person is conscious, give plenty of water to drink. Get medical attention at once.

DISPOSAL AND/OR SPILL INFORMATION: As with all cleaning and maintenance procedures, run-off from the cleaning or maintenance process should be diverted to a collection vessel or where permitted, to a sanitary sewer (consult local and state regulations) and not allowed to soak into the ground or to enter a storm sewer. If this product is spilled or contaminated and cannot be used, creating the need for disposal, absorb product on an inert absorbent material and deposit in a clean, sealable, D.O.T. specification container for disposal as a hazardous waste. Rinse area well with water. Store tightly closed containers in a cool dry area at temperatures at between 40° F (4°C) and 100°F (38°C).

NOT FOR HOUSEHOLD USE OR RESALE
